

Single Feasible Source Purchase

Title: Human Flu Virus Tests

Description: The Missouri State Public Health Laboratory desires to contract with Life Technologies for proprietary human flu virus testing materials. The Life Technologies Superscript™ tests/kits are required for laboratory testing of currently circulating human influenza strains using protocols and procedures developed by the CDC. The Life Technologies tests/kits/consumables are used in conjunction with the ABI 7500 Fast DX instruments which are currently in use at the health lab. Life Technologies is the sole manufacturer and supplier of the Superscript™ testing materials.
